Education

Sri Eshwar College of Engineering — Coimbatore, Tamil Nadu
Bachelor of Engineering (B.E.) in Computer Science and Engineering — CGPA: 8.97/10 — *2023 – 2027*

The Navodaya Academy CBSE — Namakkal, Tamil Nadu
Higher Secondary Certificate (HSC) — 92% — *2021 – 2023*

Professional Experience

Software Engineering Intern — Jun 2026 – Aug 2026
PayPal — *Chennai, Tamil Nadu*

- Designed centralized Datadog dashboards to monitor service health and observe operational metrics.
- Engineered a 4-level drill-down view from heatmaps to host/AZ levels utilizing existing service metrics.
- Applied custom business metrics across 7 repositories to enable real-time detection of flow blockages.
- Streamlined live support troubleshooting by surfacing critical operational issues directly within Datadog.

Backend Developer Intern — Feb 2026 – Apr 2026
Quantum Pulse Technologies — *Coimbatore, Tamil Nadu*

- Engineered a scalable LMS backend utilizing Node.js, Express, and MongoDB with fine-grained RBAC.
- Programmed secure RESTful APIs for assignment workflows and status tracking across diverse user roles.
- Standardized backend architecture using modular controllers, accelerating feature delivery cycles.

Projects

Spark Stock Pro – Inventory ERP System | *React, Node.js, Express, MongoDB* — Sep 2025

- Built a MERN-based inventory ERP platform, enforcing JWT authentication for secure access management.
- Integrated interactive Chart.js dashboards and automated PDF invoice generation using Puppeteer.
- Architected scalable product and order databases using MongoDB, integrating Cloudinary for media storage.

Password Manager | *Next.js, React, Tailwind CSS, MongoDB, JWT* — Jul 2025

- Built a secure full-stack credential management dashboard for storing and organizing encrypted passwords.
- Integrated user authentication using MongoDB, bcrypt hashing, and JWT for secure session handling.
- Created a customizable password generator with real-time strength feedback and complete CRUD capabilities.

Hackathon & Events Management System | *React, Node.js, Express, MongoDB* — Jun 2025

- Constructed a centralized MERN platform to manage college events, verified registrations, and team records.
- Enforced secure role-based workflows for event administration and participant management.
- Created dynamic analytics dashboards to track participation trends across departments and academic years.

Achievements & Certifications

LeetCode : Highest Rating – 1876 | Knight | Solved 650+ Problems | **Profile**
CodeChef : Highest Rating – 1444 | 2 Star | Solved 700+ Problems | **Profile**
1st Place, SICPC (ICPC-style Contest) – Achieved top rank; received 10K INR prize. — May 2025
Awarded "Best Programmer – Prodigy" for outstanding problem-solving and algorithmic skills. — May 2025
2nd Place, Code Insomnia – 24-hour competitive programming contest. — Dec 2024
2nd Place, Code Fiesta – Portfolio design and development competition. — Mar 2024
Certifications: Node.js, Express, MongoDB Bootcamp (Udemy) | DSA in C/C++ (Udemy) | SQL Basics (HackerRank)

Technical Skills

Languages: C, C++, Python, Java, JavaScript, SQL
Frameworks: React.js, Node.js, Express.js, Next.js
Databases: MongoDB, MongoDB Atlas, MySQL
Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Cloudinary, Datadog
Core Concepts: Data Structures & Algorithms, RESTful APIs, OOP, DBMS, OS, Computer Networks
